Steven moved, Ray second, to approve the minutes of the August 15, 2017, as printed.
No vote.

Correspondence-Bill reported on emails received from Mike Brady. The field activity at Mt. Horace Greeley is completed. The Preliminary Assessment has been completed. The contractor is preparing a draft of the Remedial Investigation and a Feasibility Study. Both should be finished by years end and the drafts sent to the MDEQ. The final reports will go to the MDEQ. The drilling of test wells took longer than expected. We don't know if the Authority will receive a copy of these drafts or final report. Bill will check.

Ray has not heard from the MDEQ about an asbestos assessment.

Bill contacted Representative Dianda's office, but received no response.

Ray asked for public comment at 7:30 pm. There was no public comment.

Bill contacted Lynn Madison at the Western UP Health Dept. They will not test the area well water unless the report shows that private residential wells should be tested.

The meeting adjourned at 7:35 pm.

The next regularly scheduled Authority meeting will be held on Tuesday, December 19, 2017, at 7 pm, at the Keweenaw County Courthouse in Eagle River.
