

ORDINANCE NO. 1-02

AN ORDINANCE REGULATING THE USE OF PUBLIC AND PRIVATE SEWERS AND DRAINS. THE INSTALLATION AND CONNECTION OF BUILDING SEWERS, THE DISCHARGE OF WATERS AND WASTES INTO THE PUBLIC SEWER SYSTEM AND PROVIDING PENALTIES FOR VIOLATIONS OF THE ORDINANCE.

TABLE OF CONTENTS

Section 200	- Definition
Section 210	- Required Use of Public Sewers
Section 220	- Building and Connections
Section 230	- Use of Public Sewers
Section 250	- Power and Authority Inspectors
Section 260	- Damage or Tampering with Sewage Facilities
Section 270	- Violation and Penalties
Section 280	- Administrative Appeals - Board of Appeals
Section 290	- Validity
Section 300	- Effective Date

WHEREAS, the Federal Government has enacted and amended the Federal Water Pollutions Control Act, now known as the Federal Clean Water Act (33 U.S.C. 1150 et. seq.), and

WHEREAS, the Township of Sherman has been issued a Groundwater Discharge Permit No. _____, and

WHEREAS, the Township of Sherman desires to remain in compliance with all State and Federal regulations,

THEREFORE, the Township of Sherman, Keweenaw County, Michigan hereby ORDAINS:

SECTION 200 - DEFINITIONS

For the purpose of this ordinance the following words, phrases and abbreviations shall have the meanings set out below unless the context specifically indicates otherwise. Throughout the ordinance the verb "shall" indicates mandatory action, "may" indicates permissible action, and "will" is simple future.

SUBDIV. 2001 APPROVING AUTHORITY shall mean the Sherman Township Board or its duly authorized agent or representative.

SUBDIV. 2002 BOD (abbreviation for Biochemical Oxygen Demand) shall mean the quantity of oxygen used in the oxidation of organic matter under standard laboratory procedures in 5 days at 20° C., expressed in milligrams per liter as determined according to the most recent edition of Standard Methods for the Examination of Water and Wastewater.

SUBDIV. 2003 BUILDING DRAIN shall mean the part of the lowest horizontal piping of a drainage system which receives the discharge from soil, waste and other drainage pipes inside the walls of a building and conveys it to the building sewer beginning 5 feet (1.52 meters) outside the inner face of the building wall.

SUBDIV. 2004 BUILDING SEWER shall mean the extension from the building drain to the public sewer or other place of disposal. (Also called HOUSE CONNECTION or SERVICE CONNECTION.)

SUBDIV. 2005 COMBINED SEWER shall mean a sewer intended to receive both wastewater and storm or surface water.

SUBDIV. 2006 EASEMENT shall mean an acquired legal right for the specific use of land owned by others.

SUBDIV. 2007 FLOATABLE OIL shall mean oil, grease or fat in a physical state in which it will separate by gravity from wastewater by treatment in an approved pretreatment facility. Wastewater shall be considered free from floatable oil if it is properly pretreated, and the wastewater does not interfere with the collection system.

SUBDIV. 2008 GARBAGE shall mean the animal and vegetable waste resulting from the handling, preparation, cooking and serving of foods.

SUBDIV. 2009 GROUND GARBAGE shall mean garbage which has been shredded to the degree that all particles will be carried freely in suspension under the flow conditions normally prevailing in public sewers with no particle greater than 1/2-inch (12.7 mm.) in any dimension.

SUBDIV. 2010 GROUNDWATER DISCHARGE PERMIT shall mean a permit pursuant to the State of Michigan's groundwater discharge licensing program which is administered by the Groundwater Quality Division of the Michigan Department of Natural Resources under the

authority of Act No. 245 of the Public Acts of 1929, as amended, and under the direction of Part 22 and which sets monitoring requirements and maximum contaminants levels for discharge.

SUBDIV. 2013 NATURAL OUTLET shall mean any outlet (including storm sewers and combined sewer overflows) into a watercourse, pond, ditch, lake or other body of surface water or groundwater.

SUBDIV. 2014 NORMAL DOMESTIC STRENGTH WASTE shall mean a liquid waste that is generated by a typical residence with the assumed concentrations of 200 mg/l BOD, 240 mg/l suspended solids, and 30 mg/l ammonia.

SUBDIV. 2015 PARTS PER MILLION (also MILLIGRAMS PER LITER) is a weight-to-volume ration. (To calculate pounds per million gallons multiply parts per million by 8.345.)

SUBDIV. 2016 PERSON shall mean any individual, partnership, firm, group, company, association, corporation, or society.

SUBDIV. 2017 pH shall mean the logarithm of the reciprocal of the hydrogen ion concentration. The concentration is the weight of hydrogen ions, in grams, per liter of solution. Neutral water, for example, has a pH value of 7 and a hydrogen-ion concentration of 10^7 .

SUBDIV. 2018 PRETREATMENT OR TREATMENT is the reduction of the amount of pollutants, the elimination of pollutants, or the alteration of the nature of pollutants, or the alteration of the nature of pollutant properties in wastewater to a less harmful state prior to or in lieu of discharging or otherwise introducing such pollutants into a publicly owned wastewater facility. The reduction or alteration can be obtained by physical, chemical or biological processes, process changes, or other means, except as prohibited by 40 CFR Section 403.6(d).

SUBDIV. 2019 PUBLIC SEWER shall mean a common sewer controlled by a governmental agency or a public utility located within the wastewater service area.

SUBDIV. 2020 SANITARY SEWAGE (Also NORMAL DOMESTIC STRENGTH WASTE) shall mean any combination of liquid and water-carried wastes discharged from sanitary plumbing facilities. Sanitary sewage shall be assumed to have the following waste concentrations:

BOD - 200 milligrams per liter
Suspended Solids - 240 milligrams per liter
Ammonia - 30 milligrams per liter
Other - no substances prohibited or limited by this ordinance

SUBDIV. 2021 SANITARY SEWER shall mean a sewer that carries liquid and water-borne wastes from residences, industrial plants, commercial buildings, and institutions together with minor quantities of groundwater, storm water and surface waters that are not admitted intentionally.

SUBDIV. 2022 SEWAGE shall mean the spent water of a community. (The term WASTEWATER is preferable.)

SUBDIV. 2023 SEWER shall mean a pipe or conduit that carries wastewater or drainage water.

SUBDIV. 2024 SLUG shall mean any discharge of water or wastewater which, for any length of time greater than 15 minutes, exceeds five times the average twenty-four hour concentration of any particular constituent or the average rate of flow during normal operation, and which will adversely affect the collection system or performance of the wastewater treatment works.

SUBDIV. 2025 STANDARD METHODS shall mean the methods used in the examination and analytical procedures set forth in the most recent edition of Standard Methods for the Examination of Water and Wastewater published jointly by the American Public Health Association, the American Water Works Association and the Federation of Sewage and Industrial Wastes Associations.

SUBDIV. 2026 STORM DRAIN (also STORM SEWER) shall mean a drain or sewer for conveying water, groundwater, subsurface water or unpolluted water from any source.

SUBDIV. 2027 STORM WATER RUNOFF shall mean that portion of rainwater that is drained into the sewers.

SUBDIV. 2028 SUSPENDED SOLIDS shall mean total suspended matter that either floats on the surface of, or is in suspension in water, wastewater or other liquids, and that is removable by laboratory filtering as prescribed in Standard Methods for the Examination of Water and Wastewater. It is referred to as non-filterable residue.

SUBDIV. 2029 UNPOLLUTED WATER shall mean water of a quality equal to or better than the effluent criteria in effect, or water that would not cause violation of water quality standards and which would not be benefited by discharge to the sanitary sewers and wastewater treatment facilities provided.

SUBDIV. 2030 USER shall mean any individual, partnership, firm, group, company, association, corporation, or society served by the wastewater system.

SUBDIV. 2031 WASTEWATER shall mean the spent water of a community. With reference to source, it may be a combination of the liquid and water-borne wastes from residences, commercial buildings, industrial plants, and institutions, together with any groundwater, surface water and storm water that may be present.

SUBDIV. 2032 WASTEWATER SYSTEM shall mean the structures, equipment and processes required to collect, carry away and treat domestic and industrial wastewater and to dispose of the effluent insofar as such facilities are a part of the wastewater system, owned and operated by the Township of Sherman and known as the Gay Community Wastewater System.

SUBDIV. 2033 WASTEWATER SERVICE AREA shall mean that area which is served by the Gay Community Wastewater System operated by the Township of Sherman.

SUBDIV. 2034 WASTEWATER TREATMENT WORKS shall mean an arrangement of devices and structures for treating wastewater.

SECTION 205 - SCOPE OF ORDINANCE

SUBDIV. 2051 This ordinance shall apply exclusively the wastewater system, the Wastewater Service Area and those persons, entities, buildings and improvements located within the wastewater service area. The Township retains the exclusive right, power and authority to acquire, construct, own and operate a sewage disposal system and appurtenances thereto within a part of the Township described in the aforementioned agreement and to do all things necessary in operating the sewage system for a period of forty (40) years.

SECTION 210 - REQUIRED USE OF PUBLIC SEWERS

This ordinance pertains to all wastewater generators within the wastewater service area of the Sherman Township.

SUBDIV. 2101 WASTE DISCHARGES PROHIBITED. It shall be unlawful for any person to place, deposit or permit to be deposited in an unsanitary manner on public or private property within the Wastewater Service Area of the Sherman Township wastewater system any animal or human excrement, garbage or objectionable waste.

SUBDIV. 2102 WASTEWATER DISCHARGES PROHIBITED. It shall be unlawful to discharge into any natural outlet within the Wastewater Service Area any wastewater or other polluted waters except where suitable treatment has been provided in accordance with the provisions of this ordinance.

SUBDIV. 2103 UNAPPROVED ON-SITE. Except as hereinafter provided. It shall be unlawful to construct or maintain within the Wastewater Service Area (Special Assessment District) any non-Health Department approved, on-site treatment and disposal system, such as a privy, privy vault, septic tank, cesspool or other facility intended or used for the disposal of wastewater.

SUBDIV. 2104 PUBLIC SEWER CONNECTION. The owner or owners of all houses, buildings or properties used for human occupancy, employment, recreation or other purposes and situated within the Wastewater Service Area on any street, alley or right-of-way in which there is located a public sanitary sewer is hereby required at the expense of the owner or those owners, to install suitable toilet facilities therein and to connect those facilities directly with the proper public sewer in accordance with the provisions of this ordinance within ninety days after the date of an official notice to do so, provided that the public sewer is within the established special assessment district.

SUBDIV. 2105 ALLOWABLE ON-SITE SYSTEMS. On-site disposal shall be allowed for all wastewater generators outside of the boundaries of the sewer system special assessment district and who have a construction permit from the Michigan Department of Public Health.

SECTION 220 - BUILDING AND CONNECTIONS

SUBDIV. 2201 SEWER PERMIT REQUIREMENTS. No person or persons shall uncover, make any connections with, or opening into, use, alter or disturb any public sewer or appurtenance to a sewer within the Wastewater System without first obtaining a written permit from the Approving Authority. No connection to the Wastewater System shall be made unless it is officially determined that the system capacity is available.

SUBDIV. 2202 CONNECTION COSTS. All costs and expenses incidental to the installation and connection of the building sewer shall be borne by the owner or owners. The owner or owners shall indemnify the Approving Authority for any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.

SUBDIV. 2203 BUILDING SEWER REQUIREMENT. A separate and independent building sewer shall be provided for every building discharging wastewater.

SUBDIV. 2204 USE OF OLD BUILDING SEWER. Old building sewers may be used in connection with new buildings only when they are found, on examination and test by the Approving Authority, to meet all requirements of this ordinance.

SUBDIV. 2205 BUILDING SEWER CONSTRUCTION. The size, slope, alignment, materials and construction of a building sewer and the methods to be used in excavating, placing of pipe, jointing, testing and backfilling shall all conform to the requirements of the building and plumbing codes and to other applicable rules and regulations of the Approving Authority. Wastewater facilities shall also conform to the provisions of the Water Pollution Control Federation Manual of Practice No. 9 Design and Construction of Sanitary and Storm Sewers and "10-States Standards".

SUBDIV. 2206 SEWER ELEVATION. Whenever possible, the building sewer shall be brought to a building at a level below the level of the basement floor. In a building in which any building drain is too low to permit gravity flow into the public sewer, the wastewater carried by that low building drain shall be lifted by a pump or other approved means and discharged into the building sewer.

SUBDIV. 2207 CLEARWATER SOURCES NOT ALLOWED. No person(s) shall connect downspouts, foundation drains, area-way drains, sump pumps or other surface runoff or groundwater to a building sewer or to a building drain which in turn is connected directly or indirectly to a public sewer, unless the connection is approved by the Approving Authority for the purpose of disposal of polluted surface drainage.

SUBDIV. 2208 BUILDING SEWER CONNECTION. The connection of the building sewer into the public sewer shall conform to the requirements of the building and plumbing code or other applicable rules and regulations of the Approving Authority. All connections shall be made gas-tight and watertight and shall be verified by proper testing. Any deviation from the prescribed procedures or materials must be approved by the Approving Authority before installation.

SUBDIV. 2209 CONNECTION APPROVAL. An applicant for a building sewer installation shall notify the Approving Authority when the building sewer is ready for inspection and connection with the public sewer. The connection and testing shall be made under the supervision of the Approving Authority or his representative.

SUBDIV. 2210 CONSTRUCTION SAFETY. All excavation for building sewer installation shall be adequately guarded with barricades and lights to protect the public from hazard. Sidewalks, streets, parkways and other public property disturbed in the course of the work of installing a building sewer shall be restored in a manner satisfactory to the Approving Authority.

SUBDIV. 2211 CONNECTION CHARGE. The Approving Authority may levy a connection charge upon the application for connection of a building sewer to the public sewer. The amount of this charge shall be determined by a resolution adopted by the Approving Authority. The amount shall be paid by the owner or owners of the building served by the building sewer.

SECTION 230 - USE OF THE PUBLIC SEWERS

SUBDIV. 2301 SANITARY SEWERS. No person(s) shall discharge or cause to be discharged any unpolluted waters such as storm water, groundwater, roof runoff, surface drainage or cooling water to any sanitary sewer, except that storm water runoff from limited areas, which may be polluted at times, may be discharged into the public sewer by permission of the Approving Authority.

SUBDIV. 2302 INSPECTIONS. Persons authorized by the Township may make inspections within the Wastewater System Area for sump pump connections to public sewers and illegal downspout connections. Violations shall be reported to the Approving Authority.

SUBDIV. 2303 STORM SEWERS. Storm water other than that exempted under Section 230, Section 1 and all other unpolluted drainage shall be discharged to such sewers specifically designated as storm sewers or to natural outlets approved by the Approving Authority. Unpolluted industrial cooling water or process water may be discharged, on approval of the Approving Authority, to a storm sewer or natural outlet.

SUBDIV. 2304 PROHIBITIONS AND LIMITATIONS. Discharge of various substances, materials, waters, or wastes to the sewer system shall be limited to concentrations or quantities which in the judgment of the Approving Authority will not harm the sewers, wastewater treatment process or equipment, will not have an adverse effect on the groundwater, will not otherwise endanger life, limb, public property, and will not constitute a nuisance. The Approving Authority may set limitations more restrictive than the limitations established in the regulations below if, in its own opinion, such limitation established in the regulations below if, in its opinion, such limitations are necessary to meet the above prohibitions. In forming its opinion as to the acceptability of a particular waste being discharged to the sanitary sewer, the Approving Authority will have sole discretion, but will give consideration to such factors as the quantity of subject waste in relation to flows and velocities in the sewers, materials of construction of the sewers, the wastewater treatment plant, and other pertinent factors. The limitations or restrictions on materials or characteristics of waste or wastewaters discharged to the sanitary sewer, are as follows:

1. Wastewater having a temperature higher than 150 degrees Fahrenheit (65 degrees Celsius).
2. Wastewater containing more than 25 milligrams per liter of petroleum oil, nonbiodegradable cutting oils, or products of mineral oil origin.
3. Gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid or gas.

4. Water or wastes containing toxic or poisonous solids, liquids, or gases in sufficient quantity, either singularly or by interaction with other wastes, to injure or interfere with any waste treatment process, to constitute a hazard to humans or animals, or to create a toxic effect in the receiving waters of the Wastewater Treatment Works or exceed the standard in the National Categorical Pretreatment Standard. This prohibition of toxic pollutant will conform to Section 307(a) of the Federal Water Pollution Control Act, also known as the Clean Water Act, as amended.
5. Wastewater from industrial plants containing floatable oil, fat or grease.
6. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers or other interference with the proper operation of the Wastewater system such as, but not limited to, ashes, sand, mud, straw, shavings, metal, glass, rags, manure, hair and fleshing, entrails, and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
7. Garbage that has not been properly shredded. Garbage grinders may be connected to sanitary sewer from homes, hotels, institutions, restaurants, hospitals, catering establishments, or similar places.
8. Water or wastes containing objectionable or toxic substances in concentrations that would result in the composite wastewater at the Wastewater Treatment Works exceeding the limits established by the Approving Authority.
9. Water or wastes containing odor-producing substances exceeding limits which may be established by the Approving Authority.
10. Water or wastes having a pH lower than 6.0 or having other corrosive properties capable of causing damage or hazard to structures, equipment or personnel of the wastewater facility.
11. Radioactive wastes or isotopes of such half-life or concentrations as may exceed limits established by the Approving Authority in compliance with State and Federal regulations.
12. Quantities of flow, concentrations, or both which constitute a "slug" as defined herein.
13. Water or wastes containing substances which are not amenable to treatment or reduction by the wastewater treatment process employed, or are amenable to treatment only to such degree that the wastewater treatment site effluent cannot meet the requirements of the Approving Authority's Discharge Permit.
14. Water or wastes which, by interaction with other waste or wastes in the public sewer system, release obnoxious gases, which interfere with the collection system or create a condition deleterious to structures and treatment processes.
15. Material(s) which exert(s) or cause(s):

- a. Unusual BOD, SS (suspended solids) or ammonia requirements in such quantities as to constitute a significant load on the wastewater treatment works.
- b. Unusual flow volumes of concentrated wastes constituting "slugs" as defined herein.
- c. Unusual concentrations of inert suspended solids (such as fuller's earth, lime slurries and lime residues) or dissolved solids (such as sodium sulfate).
- d. Excessive discoloration (such as dye wastes and vegetable tanning solutions).

SUBDIV. 2305 VARIANCES. Variance at its sole discretion may be issued upon application to the Approving Authority by a wastewater system user whereby wastes of unusual strength or character, either before or after pretreatment, may be accepted by the Approving Authority, provided there is not impairment of the functioning of the sewage disposal works or damage to the sewers or treatment facilities or receiving waters by reason of the admission of such wastes, and no extra costs are incurred by the Approving Authority without recompense by the person requesting admission of said waste into the Wastewater Treatment Works.

SECTION 250 - POWER AND AUTHORITY OF INSPECTORS

SUBDIV. 2501 RIGHT OF ENTRY. Duly authorized agents of the Township or the Approving Authority, bearing proper credentials and identification, shall be permitted to enter such properties as may be necessary for the purpose of inspecting, observing, measuring, sampling and testing to determine compliance with the provisions of this ordinance. They shall have no authority to inquire into any process beyond that point having direct bearing on the kind and source of discharge to the sewers, waterways or facilities for wastewater treatment.

SUBDIV. 2502 SAFETY. While performing the necessary work on private premises, investigators shall observe all the safety rules applicable to the premises established by the user.

SUBDIV. 2503 RIGHT TO ENTER EASEMENTS. Duly authorized agents of the Township or the Approving Authority, bearing proper credentials shall be permitted to enter all private properties through which the Approving Authority has duly negotiated easements, for the purpose of repair and maintenance of any portion of the wastewater works lying within the easement, subject to the terms, if any, in the agreement.

SECTION 260 - DAMAGE OR TAMPERING WITH WASTEWATER FACILITIES

SUBDIV. 2601 WILLFUL, NEGLIGENT OR MALICIOUS DAMAGE. No person shall maliciously, willfully or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance, or equipment which is a part of the Wastewater System. Any person violating this provision shall be subject to immediate arrest under a charge of disorderly conduct or malicious destruction of property as the case may be.

SECTION 270 - VIOLATIONS AND PENALTIES

SUBDIV. 2701 WRITTEN NOTICE OF VIOLATION. Any such notice given shall be in writing and served in person or by registered or certified mail. The notice shall be sent to the last address of the violator known to the Approving Authority, or its authorized designee. Where the address is unknown, service may be made upon the owner of record of the property involved. If satisfactory action is not taken in the time allotted by the notice, the following paragraph shall be implemented.

SUBDIV. 2702 VIOLATIONS. Any person found to in violation of this ordinance or any requirement of a permit issued hereunder, may be served with a written notice stating the nature of the violation and providing a reasonable time limit for compliance.

Any person who continues to violate the provisions of this ordinance beyond the time limit stated in the Notice of Violation, may be charged with commission of a misdemeanor or upon conviction thereof, shall be fined not more than One Hundred Dollars (\$100) for each day the violation continues.

Each day or portion thereof that a violation continues limit shall constitute a separate offense.

SUBDIV. 2703 LIABILITY FOR LOSSES. Any person violating any provision of this ordinance shall become liable to the Approving Authority for any expenses, loss or damage occasioned by reason of such violation which the Approving Authority may suffer as a result thereof.

SECTION 280 - ADMINISTRATIVE APPEALS - BOARD OF APPEALS

SUBDIV. 2801 So provisions of this Ordinance may be reasonably applied and substantial justice done in instances where unnecessary hardship would result from carrying out the strict letter of these section, the Township Board shall serve as a Wastewater Board of Appeals. The duty of such Board shall be to consider appeals from the decision of the Township Supervisor and to determine, in particular cases, whether any deviation from strict enforcement will violate the intent of the order or jeopardize the public health or safety.

SUBDIV. 2802 An informal hearing before the Township Supervisor may be requested in writing by any user or contractee deeming itself aggrieved by any citation, order, charge, fee, surcharge, penalty or action within ten days after the date thereof, stating the reasons therefore with supporting documents and data.

The informal hearing shall be scheduled at the earliest practicable date, but not later than five (5) days after receipt of the request, unless extended by mutual written agreement. The hearing shall be conducted at a place designated by the Supervisor.

SUBDIV. 2803 Appeals from orders of the Supervisor may be made to the Township Board, acting as a Board of Appeals, within thirty (30) days from the date of any citation, order, charge, fee, surcharge, penalty or other action. Such appeal may be taken by any person aggrieved. The appellant shall file a Notice of Appeal with the Supervisor and with the Board, specifying the ground therefore. Prior to a hearing, the Supervisor shall transmit to the Board a summary report of all previous action taken. The final disposition of the appeal shall be in the form of a resolution, either reversing, modifying, or affirming, in whole or in part, the appealed decision or determination. In order to find for the appellant, a majority of the Board must concur.

The Board of Appeals shall fix a reasonable time for the hearing of the appeal, give due notice thereof to interested parties, and decide the same within a reasonable time. Within the limits of its jurisdiction, the Board may reverse or affirm, in whole or in part, or may make such order, requirements, decision or determination as, in its opinion, ought to be made in the case under consideration, and to that end have all the powers of the official from whom said appeal is taken. The decision of said Board shall be final.

The Board of Appeals shall meet at such times as the Board may determine. Meetings shall be open to the public in accordance with applicable laws. The Board shall adopt its own rules of procedure and keep a record of its proceedings, showing findings of fact, the action of the Board, and the vote of each member upon each questions considered. The presence of three (3) members shall be necessary to constitute a quorum.

The Board of Appeals may prescribe the sending of notice of such persons as it deems to be interested in any hearing by the Board.

SUBDIV. 2804 All charges for service, penalties, fees or surcharges outstanding during any appeal process shall be due and payable to the Township. Upon resolution of any appeal, the

Township shall adjust such amounts accordingly; however, such adjustments shall be limited to the previous one year's billing unless otherwise directed by court order.

SUBDIV. 2805 If an informal or formal hearing is not demanded within the periods specified herein, such administrative action shall be deemed final. In the event either or both such hearings are demanded, the action shall be suspended until a final determination has been made, except to Immediate Cease and Desist Orders issued pursuant to this Section.

SUBDIV. 2806 Appeals from the determination of the Board of Appeals may be made to the Circuit Court for the County of Keweenaw within twenty (20) days as provided by law. Such appeals shall be governed procedurally by the Administrative Procedures Act of the State of Michigan (1979 P.A. No. 306, MCLA 24.201 et seq). All findings of fact, if supported by the evidence, made by the Board shall be conclusive upon the Court.

SECTION 290 - VALIDITY

SUBDIV. 2901 REPEAL OF CONFLICTING ORDINANCE. All ordinances or parts of ordinances or regulations in conflict with this ordinance are hereby repealed.

SUBDIV. 2902 INVALIDATION CLAUSE. Invalidity of any section, clause, sentence, or provision of this ordinance shall not affect the validity of any other section, clause, sentence, or provision of this ordinance which can be given effect without the invalid part or parts.

SUBDIV. 2903 AMENDMENTS. Public Notice shall be given in accordance with applicable provisions of the State and Federal law prior to adoption of any amendments to this ordinance.

SECTION 300 - EFFECTIVE DATE

SUBDIV. 3001 DATE EFFECTIVE. This ordinance shall take effect and be in force thirty days after the date of publication of the notice of adoption.

SUBDIV. 3002 DATE OF ENACTMENT. Passed and adopted by the Township Board of the Township of Sherman in the County of Keweenaw and the State of Michigan on this 14th day of March, 2002.
